

ADITYA FAJAR SATYA YUDHA

+6287741583948 | adityafajar.sy90@gmail.com | <https://www.linkedin.com/in/adityafajarsy/>

A Junior Front-End Developer with a background in Language Literature, Graphic Design and Creative Media. Experienced in building responsive and user-friendly web applications using Vite React, Next.js, and Tailwind CSS. Using both the technical and visual sides of web development, combining clean UI design with solid front-end implementation.

Experience

Hacktiv8

Aug 2024 - Dec 2024

ReactJS for Front End Developer (Studi Independen Kampus Merdeka - MSIB)

- Completed an intensive Frontend Web Development program under the MSIB Kampus Merdeka initiative.
- Gained hands-on experience with HTML, CSS, JavaScript, and ReactJS (Hooks, Router, and State Management).
- Built and deployed multiple individual and team-based projects, emphasizing responsive UI design, clean architecture, and real-world functionality.
- Capstone Project: Developed an E-Commerce Web Application featuring dynamic product rendering and REST API integration.
- Earned a final completion score of 89.83/100, demonstrating strong technical and collaborative performance.

Personal Projects :

Portfolio Website

React, Vite, TailwindCSS, AOS, Animate.css

- Built a fully responsive personal portfolio website using React and Vite for fast performance and modern UI.
- Designed and developed layout inspired by multiple online sources, combining preferred visual styles into a clean, minimalist interface.
- Implemented scroll-based animations with AOS and Animate.css to enhance interactivity and user engagement.
- Deployed as a personal showcase project to highlight skills in frontend development and responsive design.
- Deployed live at: <https://adityafajarsy.netlify.app>

The Hamburger — Personal E-Commerce Project

React, Redux, TailwindCSS, Vite

- Developed a practice-based e-commerce website inspired by the Hacktiv8 capstone project, featuring product listings, category filters, and a shopping interface.
- Designed the brand's visual identity, including logo, color palette, and overall layout, combining skills in graphic design and frontend development.
- Implemented Redux for state management, supported by AI-assisted learning tools to enhance development efficiency.
- Created a custom dummy database and integrated basic dynamic features for seamless product rendering.
- Deployed live at: <https://thehamburger.netlify.app>

Education Level

Universitas Padjadjaran

Jul 2021 - May 2025

Bachelor of Russian Literature, Faculty of Cultural Sciences, 3.70/4.00
